PROFESSIONAL SUMMARY

Front-End Developer with 3+ years of experience building production websites and web applications with React, TypeScript, JavaScript and Next.js. Full-stack experience with Laravel, Livewire, Alpine.js and Statamic, and strong WordPress and WooCommerce experience. Works directly with clients to clarify requirements, fix live issues and deliver responsive, accessible websites. Uses AI-assisted development tools, reviewing and refining the output. Currently developing skills in automated testing, CI and performance optimisation through personal projects.

TECHNICAL SKILLS

Front-End: React, TypeScript, JavaScript (ES6+), Next.js, Vue 3, HTML5, CSS3, Tailwind CSS, Alpine.js, Material UI, Responsive Design

Back-End & CMS: Laravel, Livewire, PHP, Node.js, REST APIs, WordPress, WooCommerce, Elementor, WPBakery, Payload CMS, Statamic, Antlers

Accessibility: WCAG, Semantic HTML, ARIA, WAVE

Testing & Tools: Vitest, React Testing Library, GitHub Actions (CI), Git, GitHub, Vite, npm, pnpm, Composer, Figma, Monday.com

Languages: English (fluent), Portuguese (native)

PROFESSIONAL EXPERIENCE

Web Developer

Inkfire | June 2026 – Present | Freelance, part-time retainer | Remote, UK

Web Developer for a UK creative agency, delivering front-end builds and WordPress development across a diverse client portfolio.

- Gathered client requirements and implemented UX, accessibility and responsiveness improvements during a Wix to WordPress migration.
- Improved site accessibility, achieving a WAVE score of 9.5/10 through semantic HTML, appropriate ARIA patterns and WCAG principles.
- Built self-contained HTML/CSS sections with scoped styles and responsive, accessible components, including a zero-JavaScript page redesign using CSS scroll-snap.
- Built client-approved homepage and page redesigns in HTML/CSS, iterating on client feedback and leading to follow-on work on further pages.
- Investigated WooCommerce checkout and caching issues, identifying root causes and applying fixes.
- Restyled WooCommerce checkout, order confirmation and payment pages to match the existing cart design, creating a consistent checkout journey.
- Managed client tasks through Monday.com and a ticketing system, agreeing weekly priorities with the Dev Lead.

Web Developer

Alt Design | November 2025 – June 2026 | Full-time | Derby, UK (Hybrid)

Built and maintained around 10 client websites using the TALL stack (Tailwind CSS, Alpine.js, Livewire and Laravel) alongside Statamic CMS, including one full production launch.

- Developed responsive layouts, reusable templates and components with Tailwind CSS, Alpine.js and Livewire.
- Configured Statamic content structures, including Collections, Blueprints, Globals, Taxonomies, Forms and Navigation.
- Implemented dynamic features such as forms with email notifications, filters and search.
- Developed a custom Statamic add-on integrating the Google Maps API, including a Vue 3 control panel fieldtype and a server-side PHP geocoding controller to keep the API key secure.
- Developed a custom Statamic add-on allowing editors to add custom CSS to individual entries.
- Worked with Git and GitHub workflows in a hybrid agency environment.

Junior Front-End Web Developer

Design Monkey Media Ltd | April 2024 – November 2025 | Full-time | Royston, UK

- Built and maintained client websites using React, TypeScript, Next.js, Payload CMS and headless WordPress.
- Developed reusable React components and integrated REST APIs for CMS-driven projects.
- Built custom WordPress themes and custom post types, implementing responsive interfaces from Figma designs.

- Performed regular WordPress health checks and maintenance across 10+ client websites, including plugin updates, backups and troubleshooting.
- Collaborated with designers and developers using Git-based workflows to deliver client projects.

Front-End Web Developer Intern

DizzitUp | October 2023 – January 2024 | Remote, France

- Developed responsive web applications using JavaScript, React, HTML and Tailwind CSS.
- Integrated Reloadly APIs (Airtime, Gift Card and Utility Payments) to enable global gifting and payments via text message and email.
- Collaborated on UI design in Figma and worked with back-end and UI/UX teams to deliver integrated features.

Front-End Web Developer (Volunteer)

Apanvi (Non-Profit) | May 2023 – October 2023 | Remote

- Built and maintained the organisation's website with JavaScript and React to increase awareness, donations and animal adoptions.

PROJECTS

Job Tracker | *React, Vite, Node.js, Vitest, React Testing Library, GitHub Actions*

- Built an AI-powered job application tracker using React and the Anthropic API, with match scoring, cover letter generation and CV adaptation.
- Wrote 63 tests with Vitest and React Testing Library, reaching 84% code coverage, including mocked API calls.
- Set up a GitHub Actions CI pipeline that runs tests and builds the app on every push and pull request.

EDUCATION

Front-End Web Development Bootcamp

edX | November 2022 – March 2023 | Remote

- 16-week programme covering JavaScript, React, Node.js, HTML, CSS, Git, REST APIs, testing and pair programming.

Technologist in Management Processes & Entrepreneurship

Universidade do Oeste de Santa Catarina (UNOESC) | 2011 – 2013 | Brazil

EARLIER EXPERIENCE

Tesco Pharmacy, UK | November 2020 – March 2024: Customer Assistant, promoted to Medicine Counter Assistant and then Dispenser.

Tricam Embedded Systems, Brazil | December 2013 – June 2019: Administrative Manager and Co-Owner. Managed sales, marketing, recruitment and finance, and led the development of a modular product sold in international markets.
